

ASSET MANAGEMENT AND MAINTENANCE HAVE NEVER BEEN SO SMART.

Water utilities can get more maintenance done with less work by using Sedarū® to connect field crews and operations, streamline workflows, and increase productivity. And by knowing the impacts of actions before ever touching an asset, utilities can reduce emergencies while prioritizing work and lowering costs.

Connect and streamline organization workflows, completing work and communicating within the same real-time platform

REDUCE COSTS BY PREPARING FOR, AND AVOIDING, SYSTEM BREAKS, FAILURES, AND CUSTOMER OUTAGES

13% NRW/WATER LOSS REDUCTION

IMPROVE PRODUCTIVITY BY 15-20% WITH REAL-TIME COMMUNICATIONS, AUTOMATION, AND CONTEXT-BASED WORK ASSIGNMENTS

Increase productivity, allowing crews to complete 20% more work than without Sedarū

20% more work

DETERMINE AREAS OF SYSTEM CRITICALITY BASED ON DAILY CHANGES

Empower field crews with a simple, specific app to do their work, with faster preventive maintenance and automated weekly, monthly, and annual reporting

MAINTENANCE CAN UNDERSTAND THE IMPACT OF OPERATING A VALVE OR HYDRANT BEFORE TOUCHING THE ASSET

PRIORITIZE YOUR MAINTENANCE WORK INTELLIGENTLY BASED ON GREATEST BENEFIT TO CUSTOMERS, OPERATIONS, AND ASSET LIFE

Maintenance
